Back Safety

Back Safety: Lift for Life 040.07.1F

(Summit Training Source) (15 minutes) (DVD)
(English) (Spanish) (Subtitles)

Many of the causes of back injury can be prevented by teaching employees to follow proper lifting techniques and the basics of back safety. Help prevent incidents, accidents, and associated costs of back injury by educating employees with this engaging program. This program covers: common back injuries, proper posture, reducing the hazard, accessing the lift, lifting safely and other risk factors.

it teaches workers how to avoid an accident. Statistics state that in the past poorly trained operators have been at the root of far too many crane accidents industry wide.

Emergency Preparedness

Treatment Plant Safety 170.27.1

(Digital-2000) (14 minutes) (DVD) (English)

This orientation program was designed to help train treatment plant workers in the dangers of the day-to-day work at a water treatment plant. Workers experience the dangers of working in or around pumps, electricity, laboratories, and chemicals. This video explains the special safety concerns of operators, technicians, and maintenance personnel.

Ergonomics

Office Ergonomics Today 190.08.1F

(Summit Training Source) (17 minutes) (DVD)
(English) (Spanish) (Subtitles)

This program was filmed with the nation's leading office furniture manufacturer and ergonomic office designer; it shows a broad range of office situations and computer use that all your workers can relate to.

The techniques and best safety practices demonstrated will teach your workers the causes of Musculoskeletal Disorders (MSDs) and motivate

Cranes and Hoists

Truck Mounted Articulating Knuckle Boom Cranes

120.12.1
(Digital-2000) (14 minutes)
(DVD) (English)

The truck mounted articulating knuckle boom crane is the most versatile piece of lifting equipment in any fleet. They are used to handle, deliver and pickup a variety of loads. The video talks about the safety considerations associated with this equipment and

them to follow safe work procedures to reduce their exposure to risk factors.

Hazardous Materials

Sodium and Calcium Hypochlorite

250.25.1

(Digital-2000) (12 minutes) (DVD) (English)

This safety video program discusses some of the dangers of sodium and calcium exposure. This program discusses safe work practices, exposure

limits, safety regulations, as well as proper PPE.

Heavy Equipment

Backhoe Operations for Public Workers

280.03.1

(Digital-2000) (15 minutes) (DVD) (English)

This DVD is designed to remind backhoe operators about the hazards and safety precautions necessary to adhere to when

operating this complex piece of equipment. Covered are many scenarios such as working on the job site, watching out for other co-workers, working near power lines, watching out for pinch points, properly setting the supports, and no riders on the equipment.

Dump Truck Safety

280.35.1

(Digital-2000) (10 minutes) (DVD) (English)

Dump trucks are complicated and expensive pieces of equipment where untrained drivers can certainly be a liability. This video covers pre-startup procedures, brake systems, dumping techniques, and general safety while operating the unit.

Loader-Backhoe Operator Safety

280.36.1

(Equipment Training Resources) (20 minutes) (DVD) (English)

Operator Safety is designed specifically for operators. The video covers the most common mistakes and accidents involving these machines, as well as loading, transporting, utility dangers and rollover accidents.

Tool and Equipment Safety

Valve Crew Safety

470.23.1

(Digital-2000) (10 minutes) (DVD) (English)

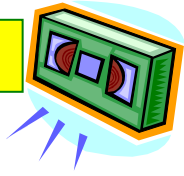

This DVD describes the different types of valves and associated hazards. It reviews use of PPE and safety measures.

Included are special emphases on ergonomics, avoiding awkward postures and

demonstrating proper lifting techniques. There is program footage with scenes of water operations. The content is applicable to any industrial environment utilizing valves and pipes such as water and wastewater utilities.

Here's what members are saying about videos!

👍👍👍=Very Good 👍👍=Good 👍=Fair

Customer Service for Water Utilities (Customer Service) (130.02.1)

👍👍👍 Excellent training aid.
Chino Basin Water Conservation District

Planning for Disaster: Earthquakes (Emergency Preparedness) (170.05.1)

👍👍👍 Cucamonga Valley Water District

Fall Prevention for General Industry (Slips, Trips & Falls) (420.11.1E)

👍👍👍 Covered several important areas.
Camrosa Water District

Pipe Profile Series: Steel Pipe (Maintenance) (330.21.1)

👍👍👍 Yuima Municipal Water District

Eye Protection: Why Gamble? (Eye Safety) (200.02.1E)

👍👍👍 Great video! (Best I've seen in a long time.)
Crescenta Valley Water District

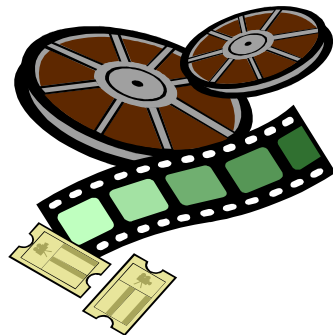

Reliable Coliform Sampling for Water Systems (Water) (520.36.1)

👍👍👍 Rowland Water District

Working Safely with Hand and Power Tools (Hand & Wrist Safety) (240.07.2)

👍👍👍 Will include this in our annual training.
Bella Vista Water District
