Heat Stress

Heat Stress 270.06.1F

(Summitt Training Source, Inc.) (13 minutes)
(DVD) (English) (Spanish) (Subtitles)

Each year, thousands of workers are overcome by heat stress. If one of your workers falls victim to heat stroke, recognizing the symptoms and taking quick corrective action is vital to minimize the negative health effects - and possibly save a life. This program covers: how the body handles heat; types of heat-related disorders; preventive measures; recognizing symptoms; and helping co-workers suffering from heat stress.

Water

Water Main Disinfection and Dechlorination 520.41.1

(AWWA) (14 minutes) (DVD) (English)

New water mains, repaired water mains, and in-ground pipe that has been contaminated by cross-contamination or backflow, must be disinfected before

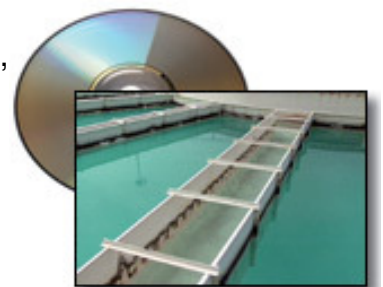

being put into service. This video visually demonstrates the process described in AWWA Standard C651.05, Disinfecting Water Mains. Viewers learn: why water mains must be

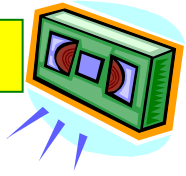

disinfected; how to protect water pipe from becoming contaminated while in storage, in transport, and during installation; how to disinfect water mains using chlorine; how to remove excess chlorine from the water supply (dechlorinated) prior to putting the pipe into service; and how to dispose of the highly chlorinated discharge.

Water Supply Operations: Coagulation, Flocculation, and Sedimentation 520.42.1

(AWWA) (21 minutes) (DVD) (English)

The most common method of removing turbidity from source water during drinking water treatment is a combination of coagulation, flocculation, and sedimentation, followed by filtration. This DVD explains and demonstrates coagulation, flocculation, and sedimentation processes to treatment operators and students. It defines the three treatment processes, gives a step-by-step guide for what to expect at each stage of treatment, and explains how to optimize each process for maximum effectiveness and minimum cost.

Here's what members are saying about videos!

👍👍👍=Very Good 👍👍=Good 👍=Fair

Sun Safety for Outdoor Workers (Heat Stress) (270.08.1)

👍👍👍 Orange County Water District

A Shock to the System (First Aid) (220.01.1Q)

👍👍👍 Saucelito Irrigation District

Treatment Plant Safety (Emergency Preparedness) (170.27.1)

👍👍👍 Crescenta Valley Water District

Heat Illness (Heat Stress) (270.03.1)

👍👍👍 Pinyon Pines County Water District

Hearing Loss Prevention (Hearing Conservation) (260.07.1)

👍👍👍 Bella Vista Water District

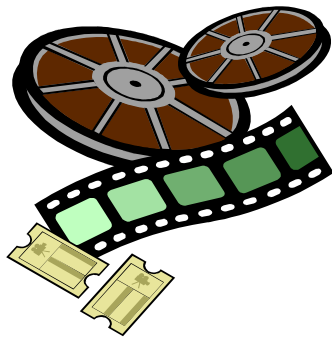

Low Visibility and Driving (Driving Skills) (150.06.1)

👍👍👍 Pebble Beach community Services District

Handling Gas Cylinders (Compressed Gases) (120.11.1)
