

# NOMINATION FORM

## HARVE LABOUNTY WORKERS' COMPENSATION SAFETY AWARD PROGRAM

AGENCY: Elsinore Valley Municipal Water District

Employee Nominated:

Name: Beth Greene, Safety Officer and Jose Martinez, Welder/Fabricator

Job Classification: \_\_\_\_\_

**Reason for Nomination:** Ed Maddox pointed out a safety issue at the Regional WWTP where the weir accuating valve bar (automatically starts) was turning uncovered and could grab staff's uniforms and get caught. Beth Greene suggested an inexpensive design that would resolve the safety issue by enclosing the rotating bar with PVC pipe attached to a stainless steel cover on the accuator. Jose Martinez then fabricated and installed the safety mechanism which also is easy to remove when needed for maintenance or repairs.

Nominated by: Mitch Pierson, Chief Plant Operator
