

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

Agency: YLWD

ERGO-LPP; ERGO-FE; OPS-MX

Employee Nominated:

Name: Mike Kiddie/Ron Talbert

Job Classification: Senior Fleet Mechanic/ Mechanic III

Reason for Nomination: Mike found a ergonomic solution to mitigate the exposure of manually lifting up the Wacker and securing on truck. His idea was to purchase a "Jumping Jack Rack" for the Crew truck. This will limit the ergonomic exposure of back injuries. The Jumping Jack is a lifting device that is mounted at the rear of the truck and the Wacker is raised and lowered by a winch type device. Ron assisted with the relocation of the other necessary devices at the rear of the truck and mounted the Jumping Jack in a secure location for easy and safe access.

Nominated by: Jeremy Smith
