H.R LaBounty Safety Award Program
Nomination Form

January 8, 2015

Moulton Niguel Water District
27500 La Paz Rd
Laguna Niguel, CA 92677

Employee nominated: Mark Herron, Operations – Collections Supervisor

Reason for nomination:

Mark designed and built a multi-holed manhole safety device. While pumping water from a pond to the sewer, mnwd was using multiple submersible pumps and hoses. Two issues were encountered, open manhole and a way to hold the hose end into the sewer line. The pictured device is described on attached sheet. Even though we were using traffic cones for open manhole and sandbags to hold the hoses, Mark's thinking made for a safety device special to the event and will be used in future similar situations.

Nominated by: Brad Bruington, Superintendent Utilities Maintenance

Manhole Safety Cover

Eliminate fall hazards when discharging into open manholes! Made of $\frac{3}{4}$ " finn form plywood, this safety cover will fit over manholes up to three feet in diameter. Four 4" cutouts can accommodate various hose sizes and configurations. The base has six rubber feet for stability and three handles for easy maneuvering.

Before 😞

After 😊

Manufactured by Mark Herron.
