

# H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

OPS-MX

Agency: Wheeler Ridge-Maricopa Water Storage District

Employee Nominated:

Name: Stephen Chase

Job Classification: Warehouseman

**Reason for Nomination:** During winter maintenance at WRM 10, the maintenance crew cleans and recoats the 60" diameter manifold. The manifold is 8 feet underground and it is pitch black inside the manifold. They use grinders and other tools so it is easy to trip over things with just a light on their hard hats. Using big halogen lighting just lights up small areas and makes it hot in the manifold. Stephen Chase came up with the idea of using LED rope lighting and magnetic hooks to run 150 feet of LED lighting down the manifold.

Nominated by: Mike Pilatti
