

H. R. LABOUNTY SAFETY AWARDS PROGRAM NOMINATION FORM

Agency: Crescenta Valley Water District

Employee Nominated:

Name: David Gould

Job Classification: District Engineer

Reason for Nomination:

David Gould was out with the crews on a water main leak on a beautiful sunny Sunday afternoon a couple of months ago. David observed the employees having to use lifting straps attached to the backhoe that would shift or sometimes slide off the large rocks that had to be moved. David informed me that we needed to come up with a tool that would safely do the job. This brings us to the new Rock Jaw lifting tool that was purchased and will now become the preferred method of loading large rocks into the dump trucks. We have conducted a tailgate safety training on the proper use and care of the tool and have put it into service according to the manufactures instructions. We believe this will save an employee from a serious injury. As of this date Crescenta Valley Water District has worked 1158 days without a lost time injury, we are all very proud of this accomplishment.

**This nomination addresses risk reduction “best practices” in the JPIA’s
Commitment to Excellence Program.
