

JPIA Leadership Essentials for the Water Industry

E.G. "Jerry" Gladbach Leadership Grant Application

E.G. "Jerry" Gladbach
JPIA Director 2002-2022

JPIA facilitates the **Leadership Essentials for the Water Industry Program** each fall. One cohort in northern California and one in southern California embark on the year-long program to become better leaders.

The program aspires to develop the kind of leader epitomized by former JPIA Board President, E.G. "Jerry" Gladbach. Throughout his 20+ year involvement as a JPIA Director, Jerry demonstrated the value of service and commitment to the professional development of fellow water industry professionals.

Not all JPIA members can afford to send their leaders to such a program. With that in mind, the JPIA Board of Directors established the E.G. "Jerry" Gladbach Leadership Grant to absorb the entire cost of the program and related travel for one participant in each of the northern and southern California programs.

To apply, submit responses to the questions below **in addition to the program application by June 15, 2023** to training@acwajpia.com. If awarded the grant, JPIA will reimburse the agency for all expenses related to attending the year-long program beginning fall 2023.

Name _____ Agency _____

Title _____ Date _____

Email _____

How will your agency benefit from your attendance in the Leadership Essentials for the Water Industry Program?

Please summarize your professional background including leadership and water industry experience.

Why are you applying for this grant (i.e. personal, business, and/or financial considerations)?

What are your future plans at your water agency?

Submit to training@acwajpia.com by June 15, 2023 for consideration.
